

DeLaval – We drive progress in milk production

DeLaval is a full-service supplier to dairy farmers. The company develops, manufactures and markets equipment and complete systems for milk production and animal husbandry. Service and sales of a wide range of accessories are also key aspects of DeLaval's operations.

Research and development

Research and development has been essential to the company's steady progress. This is particularly emphasised in product development, where the team works in close contact with dedicated research facilities and a worldwide network of farmers, academics, scientists, sales teams, authorised dealers and other agricultural experts.

Core values and product range

DeLaval has long maintained a strong emphasis on milk quality, hygiene and animal welfare. The company supplies highly efficient solutions for milking, herd management, animal traffic control, feeding, cooling, manure handling, ventilation and energy recovery. Additionally, DeLaval provides

milking equipment installations, preventive maintenance programmes, emergency service and mobile shops to approximately one million customers around the globe.
